

Trans-Bridge Expands Newark Airport Service

Good news! We are pleased to announce the expansion of our service to Newark Liberty International Airport with the addition of two new runs!

This move comes in direct response to United Airlines' recent cessation of its Landline bus service between Lehigh Valley International Airport and Newark Airport.

By introducing these new shuttle connections, we will fill an important gap in service, ensuring that travelers in the region continue to have seamless and affordable access to major transportation hubs.

"Listening to the needs of our passengers has always been at the heart of our operations," said Tom JeBran, President, "With the need for reliable airport transportation and requests for service, we are proud to step in and provide these options. Our goal is to keep the Lehigh Valley and surrounding communities connected to the destinations they use most."

The expanded Newark Airport runs will begin effective Monday, September 8, and run daily, seven days a week. These daily runs are in addition to our **weekday and weekend schedules**.

- **Run 601** - Arriving to Newark Airport at 5:30 a.m.
- **Run 603** - Arriving to Newark Airport at 11:15 a.m.
- **Run 600** - Departing Newark Airport at 7 a.m.
- **Run 602** - Departing Newark Airport at 1 p.m.

Give Yourself Time!

One of the best ways to ensure a positive journey with us, is to reserve your tickets in advance. Waiting until you are in line to board may result in the bus being sold out, leaving you without a seat. Reserving early guarantees your spot and helps us keep the boarding process quick and efficient for everyone.

The same applies to rescheduling. If you wait until the last minute to change your reservation, the bus you hope to switch to may already be full or sales are cut off because it is too close to departure time. By rescheduling ahead of time, you increase your chances of securing a seat on your newly intended bus and avoiding unnecessary stress.

Service to Cape Liberty Cruise Port Resumes!

Back by request! You asked, we are delivering! Our transportation service to Cape Liberty Cruise Port in Bayonne, New Jersey, resume on September 8, coinciding with our expanded Newark Airport Schedule.

The service resumption comes in response to customer requests and the growing popularity of cruises departing from Cape Liberty. Located just across the Hudson River from Manhattan, the port is home to some of the world's most recognized cruise lines.

"We're excited to once again provide cruise passengers with an easy, stress-free way to begin their cruise vacations," said Tom JeBran, President of Trans-Bridge Lines. "With our professional drivers, comfortable coaches, and direct service, travelers can sit back and relax from the moment they board with us."

Trans-Bridge's Cape Liberty service will operate from the Lehigh Valley Airport, PA, and Annandale Square, Clinton, NJ.

For schedules, fares, and reservations, click **here**.

Reservations are required and should be made at least two weeks prior to departure, but no earlier than six weeks in advance. Reservations are by phone only at 610-868-6001, Monday through Friday, 8 a.m. to 4:45 p.m.

We're grateful for our hardworking passengers and dedicated team who keep us moving every day. Wishing you a safe, relaxing holiday filled with well-deserved rest and enjoyment.

TERMS & POLICIES

Reduced Fares

At Trans-Bridge Lines, we strive to provide flexible travel options and a smooth experience for all of our passengers. To ensure fairness and consistency, we want to remind riders of our policy regarding Reduced Fare tickets.

Passengers who qualify for Reduced Fare tickets should be sure to purchase the correct fare type at the time of booking. If a passenger purchases an Adult Fare ticket instead of a Reduced Fare, and then uses that ticket for travel, Trans-Bridge Lines cannot provide a refund or credit for the difference in fare.

Once a ticket has been used for travel, it is considered valid and complete. Refunds or credits cannot be issued retroactively.

However, if the ticket has not yet been used, Trans-Bridge will gladly work with passengers to reschedule their travel for another date or time, in accordance with our regular rescheduling policies.

We encourage all passengers to review fare options carefully before completing their purchase to ensure the correct ticket type is selected. Our goal is to provide the best possible service while maintaining consistent and fair policies for everyone who rides with us.

For questions regarding fares, scheduling, or eligibility for Reduced Fare tickets, please contact our Customer Service team at webmaster@transbridgelines.com or call 610-868-6001.

Park the Car, Grab the Bus ...

Traveling to New York City is always an adventure — it is after all, the biggest, busiest, and most amazing city in the world! — but how you get there can make all the difference. With so many options available — driving yourself, taking a train, or flying — buses stand out as one of the best ways to reach the city that never sleeps, especially for commuters.

First, buses take the stress out of the trip. There's no need to battle traffic on your own, circle endlessly for parking, or pay sky-high garage fees. Instead, you can sit back, relax, and let a professional driver handle the busy roads.

Second, buses drop you right in the heart of the action. You'll step off the bus just blocks from Times Square, theaters, shopping, dining, and more. For commuters, this means a predictable and direct ride that gets you exactly where you need to be.

Traveling by bus is also one of the most affordable options. Tickets cost a fraction of what it takes to drive and park in Manhattan, and far less than other modes of transportation. Plus, with free Wi-Fi and comfortable seating, you can make the most of your travel time, whether that means catching up on work, streaming a show, or simply resting before the day's demands.

Finally, buses are reliable and convenient. With multiple departures daily, commuters have the flexibility to travel according to their schedules.

For the comfort and cleanliness of all passengers, food is not permitted on Trans-Bridge Lines buses.

Passengers may bring water, and during the morning commute, we allow some leniency for those who wish to board with a cup of coffee or tea.

We appreciate your cooperation in helping us maintain a pleasant travel experience for everyone.

As students return to classrooms this season, communities across the region are experiencing one of the busiest times of the year: the start of the school year. Streets are bustling with cars, buses, and, most importantly, students walking and biking to and from school.

For those who rely on Trans-Bridge Lines for their daily commute, this increase in traffic and pedestrian activity may mean slight delays. Our drivers are committed to keeping everyone safe while maintaining timely service, but the extra congestion is a factor we all need to navigate together.

We encourage passengers to plan ahead, allow a little extra travel time, and remain patient as our team adjusts to these changes. Safety is always our top priority, and by working together, we can ensure a smooth journey.

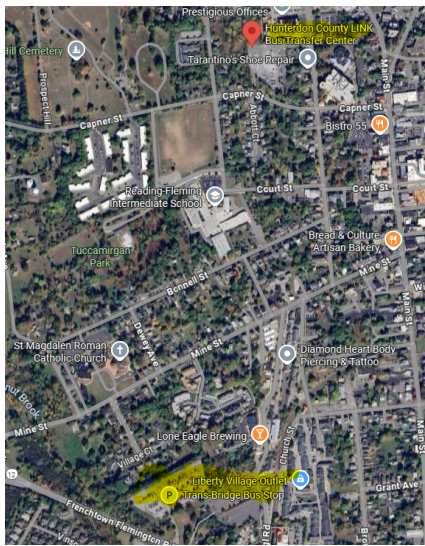

Thank you for riding with Trans-Bridge Lines and for helping us make this back-to-school season safe and efficient for all.

I want to commend the driver of my bus from the Port Authority to Allentown. She went above and beyond to help me with something and MADE MY DAY!!!! Plus she was a good, professional driver.

Also, I have been using Trans-Bridge decades, but last week I decided to use FlixBus to Penn Station. Not again. TransBridge is so much more professional in all aspects. The driver of the FlixBus was smoking a cigarette as he took tickets. Ugh! Your buses are cleaner, more comfortable, and have better drivers. Never again will I choose FlixBus over Trans-Bridge. I was so impressed by the difference between bus companies I just had to express it!

Good job! *Dr. Linda T.*

Reminder

Flemington Bus Stop

Due to circumstances beyond our control, the usual parking area at Liberty Village, Flemington, is unavailable until further notice.

Passengers are asked to park at the **Hunterdon County Link Bus Transfer Center at 80 Park Avenue, Flemington**, which is approximately five minutes (1 mile) from Liberty Village.

To view a map, click here.

At this time, the stop remains temporary while we continue to evaluate our options and work with local partners.

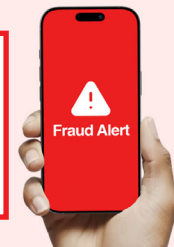

Ticket Purchases at the Port Authority Bus Terminal

If you are purchasing Trans-Bridge Lines tickets at the Port Authority through Peter Pan Bus Lines, please be sure to tell the ticket agent that you specifically

want a Trans-Bridge Lines ticket. This will ensure you receive the correct ticket and avoid being issued one for another bus company.

Fraudsters Could Be Imperonsating Your Bank

A scam involving spoofed phone calls- where fraudsters disguise their caller ID to appear as if they're calling from the bank- is on the rise.

Red Flags to Watch For:

The caller pressures you to share login credentials or sensitive information. They create a sense of urgency, demanding immediate payment of "owed" funds or that a potentially fraudulent transaction is leaving your account. The payment request lacks supporting documentation and comes

through unusual channels.

Protect Yourself:

The bank will never call you to ask for your online banking password, security codes, or full account numbers over the phone.

If a call feels suspicious, hang up immediately and contact your bank directly.

Always verify payment requests through an independent source before taking any action.
