

Trans-Bridge Lines Launches New Mobile Ticketing App

It's official! We've entered a new era of passenger convenience with the debut of our **new mobile app, now available for download on both the Apple App Store and Google Play Store.**

Designed to streamline the travel experience, the app allows customers to book bus tickets quickly and securely, view schedules and routes, and manage trip details directly from their smartphones. Passengers can also access mobile tickets for seamless boarding,

eliminating the need for printed confirmations and making travel more efficient from start to finish.

By bringing essential travel tools into a single, easy-to-use platform, Trans-Bridge is enhancing accessibility and meeting the expectations of our passengers.

"This app is something we have been working with our ticketing vendor on for some time," says James JeBran, Executive Vice President and Treasurer. "This reinforces our focus on improving the overall passenger experience."

With this launch, we join a growing number of transportation providers embracing technology to simplify travel planning.

Whether commuting daily or planning a getaway, passengers now have greater control and flexibility — right at their fingertips.

Community Participation Encouraged for Spring Blood Drive

We are proud to announce that we have partnered with **Miller-Keystone Blood Center** for a Spring Blood Drive, inviting passengers, employees, and the broader community to take part in a lifesaving initiative. This month-long event is in honor of **our company's 85th anniversary and our longstanding commitment to giving back.**

As part of the **Miller-Keystone Adopt-A-Day program**, we are hosting blood drive donations from **April 20 through May 18, 2026.**

Donors can conveniently give blood at multiple Miller-Keystone donor centers, including locations in Allentown,

Bethlehem, and Easton, making participation both accessible and impactful:

**1255 S. Cedar Crest Blvd, Suite 1300, Allentown
1465 Valley Center Parkway, Bethlehem
3725 Nicholas Street, Suite 3746B, Easton**

This initiative offers flexibility, allowing donors to schedule appointments that fit their availability. Participants are asked to reference Trans-Bridge Lines when registering so their donation can be counted toward the company's campaign with **Group ID 7543.**

Blood donations remain a critical need. Each donation has the potential to save multiple lives, **making every appointment meaningful.**

We thank all those who are able to participate and help make a difference — **one pint at a time.**

Trans-Bridge Lines Celebrates Safety Week

Trans-Bridge Lines hosted its annual **Safety Week from April 21 through April 24**, bringing together team members for a focused, hands-on examination of safety in our daily operations. **The initiative reinforced our ongoing commitment to protecting our employees, passengers, and the communities we serve.**

This year's theme, submitted by driver Eric Woodson, was "Safety starts with 's', but begins with you!"

Throughout the week, a wide range of topics were addressed through interactive sessions, expert-led presentations, and practical exercises designed to engage participants and strengthen real-world readiness.

One highlight was a driving trivia contest led by Brendan Stanczyk, Training Manager. It provided an engaging way to revisit critical driving rules, encouraging friendly competition while reinforcing the standards our drivers uphold every day.

Employees listen to the first presentation of the week at our Bethlehem main facility.

We were also joined by representatives from **RLI and New Jersey Manufacturers Insurance Companies**, who shared valuable insights into risk management and safety awareness. Their presentations emphasized the importance of proactive decision-making, information sharing, and maintaining a safety-first mindset both on and off the road.

Emergency preparedness was another key focus. **E.J. Coleman, City of Bethlehem Bureau of EMS**, delivered a comprehensive session on responding to medical emergencies, including strokes, seizures, CPR procedures, use of a defibrillator, and how to properly manage cuts and apply tourniquets. These practical skills are vital in ensuring swift, effective responses

when every second counts.

E.J. Coleman, City of Bethlehem Bureau of EMS, explains to employees how a defibrillator works.

Recognizing that safety extends beyond physical conditions, the week also included a session on managing stress in the workplace presented by **Jerry Featherman, Fleet & Facilities Maintenance Manager.** This discussion highlighted how to recognize stressful situations, use coping strategies, and asking for assistance.

At our main facility in Bethlehem, employees participated in a fire drill, reinforcing evacuation procedures and ensuring readiness in the event of an emergency.

Hands-on learning continued with a Pre-Trip Inspection Contest, open to both drivers and mechanics. Participants were challenged to identify potential issues on a motorcoach, simulating real inspection conditions. **The top performer correctly identified 19 out of 20 items, earning recognition and a gift card for their sharp attention to detail and expertise.**

The week also provided an opportunity to celebrate excellence. Trans-Bridge Lines proudly recognized several motorcoach operators with **Years of Safe Driving Awards.** The awards were presented during a special meeting at the Port Authority Bus Terminal's Times Square Hall Room on April 22. Multiple drivers were honored for achieving 18 or more years of safe driving, with the highest distinction awarded to a driver marking an extraordinary 32 years of safe service.

Kendall Rohan, center, receives a Certificate of Achievement for 18 years of Safe Driving.

We extend our thanks to all participants and presenters who contributed to a successful and impactful week. **As always, safety remains at the core of everything we do.**

A Courtesy and Safety Reminder: Keep Empty Seats Available

The safety and comfort of every passenger is a shared responsibility. As ridership continues to remain strong, we'd like to remind all customers of an important policy that helps ensure a smooth and safe travel experience for everyone: seats are for passengers — not personal belongings.

Placing bags, coats, or other items on adjacent seats to block others from sitting in them creates unnecessary challenges, particularly during busy travel times. Our motorcoaches are designed to accommodate passengers efficiently, and keeping seats available allows everyone to board, find a place quickly, and travel comfortably.

Beyond courtesy, there is a critical safety component to consider. Loose items placed on seats can become hazards in the event of a sudden stop or emergency. Items not properly secured may shift or become projectiles, posing a risk to you and those around you. Keeping belongings stored securely — either under your seat, or in designated storage areas — helps reduce this risk significantly.

Our drivers may ask passengers to move personal items from seats when needed, especially on fuller routes. We appreciate your cooperation in these situations, as it allows us to maintain both safety standards and a positive onboard environment.

A few simple practices go a long way:

- Keep adjacent seats clear for fellow passengers
- Store bags under your seat or in overhead compartments when available
- Be mindful of aisle space to ensure clear movement throughout the coach

By working together and being considerate of others, we can ensure that every trip with Trans-Bridge Lines remains safe, efficient, and enjoyable.

We're Hiring!

Know someone seeking a new career?
We are hiring for the following positions:

- Bus Cleaner/Washer/Fueler
- Motorcoach Drivers
- Customer Service Representative
- Diesel Mechanic
- Dispatch/Driver Supervisor

Plan Ahead for a Smooth Trip: Book Your Ticket in Advanced

Trans-Bridge Lines encourages all passengers to plan ahead and secure tickets in advance of travel, rather than waiting until the last minute or attempting to book while boarding the bus.

Waiting until arrival at the stop, or worse, attempting to book while stepping onto the motorcoach — may result in not being able to secure a seat and can hold up fellow passengers, making departures late.

While our goal is always to provide a convenient and reliable travel experience, last-minute ticket purchases can introduce avoidable challenges. Popular runs can and do sell out, particularly during peak travel times.

In addition, purchasing tickets requires a stable internet connection and time to complete the transaction. Connectivity issues, slow

processing, or payment delays can prevent a successful booking, leaving little opportunity for resolution before departure.

When boarding is already underway, there is also limited time for drivers or staff to provide assistance with ticketing issues.

Passengers are strongly encouraged to:

- Purchase tickets in advance whenever possible.
- Allow sufficient time prior to departure to complete transactions.
- Confirm tickets before arriving at the stop.

A Word on Seatbelts

For your safety, all of our motorcoaches are equipped with seatbelts.

We strongly recommend that passengers wear seatbelts at all times while the bus is in operation.

Wearing a seatbelt significantly reduces the risk of injury in the event of sudden stops, accidents, or unexpected road conditions.

Passengers are responsible for ensuring their seatbelts are properly fastened throughout the duration of their trip.
